JOSHUA MENDOZA

Software QA Engineer

Rizal, Philippines | +63 969 469 1687 | joshua.mendoza0824@gmail.com | linkedin.com/in/joshua-mendoza-softwareqaengineer

PROFESSIONAL SUMMARY

Software QA Engineer with over 4 years of experience in manual and automation testing across fintech, enterprise, and mobile platforms. Skilled in test planning, execution, regression and end-to-end testing, and defect management in Agile teams, with a focus on preventing defects from reaching users and delivering stable, high-quality software.

CORE SKILLS

Automation: Robot Framework, Selenium WebDriver, Playwright, Java, JavaScript, TypeScript

Testing: Manual & automation testing, test planning, test case design & execution, regression testing, SIT & UAT, API testing, mobile & web testing, cross-platform testing, UI/UX testing

Tools: Postman, ClickUp, SQL (basic queries), Git, VS Code / Eclipse, Agile / Scrum

PROFESSIONAL EXPERIENCE

TraxionTech March 2024 – Present

Software QA Engineer

- Designed and executed 100+ test cases per release cycle for web and mobile applications.
- Built and maintained automation scripts using Robot Framework.
- Performed regression and end-to-end testing; identified and tracked defects, improving product stability.
- Collaborated with developers and stakeholders in Agile sprints.
- Mentored junior testers and helped improve QA processes.
- **TraxionPay:** automated end-to-end payment gateway flows, cutting regression cycle time by 40% and catching critical transaction bugs before production.
- **DigiCOOP:** delivered full regression and functional coverage for a cooperative digital banking platform, with zero critical defects reported at launch.
- **BIBO Super App:** set up a structured UAT process that significantly reduced post-release defects.

Projects: TraxionPay, DigiCOOP, MicroPay, RBPay, BIBO Super App, PSSLAI Mobile App, MannyPay App, TraxionOne (POS)

Awards & Recognition: Innovation and Improvement Award, TraxionTech (2026) · Rising Star – Outstanding Newcomer, TraxionTech (2025)

Stratpoint Technologies, Inc. June 2022 – October 2023

Software QA Engineer (Apple UAT Tester)

- Executed functional and user acceptance testing (UAT).
- Created and maintained test cases based on requirements.
- Logged and tracked defects with clear documentation.
- Conducted regression testing to protect system stability.
- Collaborated with cross-functional teams for release validation.

Projects: Apple Talent Point, Apple Jobsite, Merlin

EDUCATION

Bachelor of Science in Information Systems 2018 – 2022

University of Rizal System, Binangonan Campus
